

BINDERS

Being an extremely versatile product, the binder is used either to contain or mark the edge of paved areas, squares, streets, etc. or to shape flower-beds, traffic islands and gardens. Alternatively, it can be used to face low walls and steps. Its upper surface is natural and its sides are split at right-angle to the plane.

Product type	Width (*)	Length (*)	Thickness (*)	Weight Lb/lf	Weight Lb/sf
Normal 4" x 2"	4" (10 cm)	From 6" to 16" circa	From 1 ½" to 2 ½" (from 4 to 7 cm)	ca. 8.00	Ca. 24.00
Normal 4" x 3"	4" (10 cm)	From 6" to 16" circa	From 2" to 3 ¼" (from 5 to 8 cm)	ca. 11.00	Ca. 33.00

(*) Note : Inch dimension is nominal. Please refer to cm for exact production size
