

STEPS also WINDOW SILLS and COPING STONES

Machined surface

These items can also be obtained by sawing porphyry blocks. In contrast to the items with a natural surface, they have a uniform thickness and their surface has been shaped either by flaming, honing or polishing, according to the desired final effect. These are the most refined and elaborated products, qualified for the most challenging and prestigious applications for both external (recommended: flamed) and internal use (recommended: flamed, polished, semi-polished, honed).

The edges are usually sawn, although other workings are also possible, like flamed edge, flamed or polished bull-nose, half-bull-nose, split-edge.

Product type	Standard Thickness (*) – (**)	Width available (*) – (**)	Length	Weight lb/sf
Semi - polished surface (***)	1 ¼" – 1 ½" - 2" – 2 1/2" (3 cm, 4 cm, 5 cm, 6 cm)	8" - 10"- 12" – 13" – 14" – 16" (20 – 25 – 30 – 33 – 35 - 40 cm)	Random	13.00 per in of thickness
Flamed surface	1 ¼" – 1 ½" - 2" – 2 1/2" (3 cm, 4 cm, 5 cm, 6 cm)	8" - 10"- 12" – 13" – 14" – 16" (20 – 25 – 30 – 33 – 35 - 40 cm)	Random	13.00 per in of thickness

Available Colors: **ITALY -** **Mixed Grey/brown – Camparta Red**
 ARGENTINA **Pearl Grey – Light pearl Grey, Alps Grey, Dolomiti Red**

(*) Note : Inch dimension is nominal. Please refer to cm for exact production size

(**) Note: Upon request, other thickness selection or width is available.

(***) Note: Semi-polished surface is very unique, yet very difficult and slow to obtain. Availability to check with production.
