

## STEPS also WINDOW SILLS and COPING STONES

### Natural surface

These items are obtained from large slabs with natural surface and varying thicknesses. Two main types are available: split edges or sawn edges. The first ones, more rustic, are suitable for gardens, and are obtained by splitting the edges, with a selection of the thickness. The second ones, more finished and more elegant looking, are instead obtained by the sawing of the slabs with further calibration of the visible edges, in order to obtain a more uniform thickness. Upon request the following types of edge finishes are possible: split, flamed, owl's beak and bull nose (flamed or polished).

Product type	Standard Thickness (*) – (**)	Width available (*)	Length	Weight lb/sf
Natural surface and split edges	Variable from 1 ¼" to 1 ½" (from 3 to 4 cm)	8" - 10" - 12" - 13" - 14" - 16" (20 - 25 - 30 - 33 - 35 - 40 cm)	Random	13.00 per in of thickness
Nat. Surface, sawn edges and calibrated front (**)-(***)	1 ¼" - 1 ½" - 2" - 2 ½" (3 cm, 4 cm, 5 cm, 6 cm)	8" - 10" - 12" - 13" - 14" - 16" (20 - 25 - 30 - 33 - 35 - 40 cm)	Random
